INQUEST INTO THE DEATH OF KUM BAE CORONER'S RECOMMENDATION DIRECTED AT ALFRED HEALTH RESPONSE OF ALFRED HEALTH

Coroner's Recommendation

The Alfred Hospital consider the construction of intraoperative CT scan suites.

Response by Alfred Health

Alfred Health supports the Coroner's recommendation in principle. However it would be disruptive and costly to accommodate an intraoperative CT scan suite in the existing operating suite at The Alfred Hospital. Alfred Health understands that the Department of Health is considering the issue of intraoperative CT generally and we would certainly consider this option in any new theatre complex.
