Monthly Suicide Data Report

June 2025 update

22 July 2025

65

WARNING: This following report includes information on suicides.

For help or information contact **beyondblue** on 1300 224 636, or **Lifeline** on 13 11 14.

Purpose

This report presents the June 2025 update to Victorian suicide statistics. This report was produced under the Coroners Court of Victoria's initiative to release timely and accessible data on suicide across the state.

Victorian Suicide Register

In Victoria all deaths from suspected non-natural causes including suspected suicides are required to be reported to the Coroners Court of Victoria. The Coroners Court reviews newly reported deaths on a daily basis to identify those that occur in circumstances consistent with suicide and adds these deaths to the Victorian Suicide Register (VSR).

The VSR has been in operation since 2012 and is the most accurate and timely data source for suicide in Victoria. VSR data is regularly shared with the Victorian Department of Health, the Australian Institute of Health and Welfare, Victoria Police, health services, and other bodies engaged in suicide prevention to inform their work.

Considerations when interpreting the data

Victoria's suicide numbers vary quite substantially from month to month. Additionally, there can be substantial variation in the monthly and annual number of suicides by sex and age group. This variation, which is not unique to Victoria but is a feature of suicide data around Australia and internationally, usually results from random factors rather than underlying systemic issues or emerging clusters. The data therefore should be interpreted cautiously, with great care taken in drawing conclusions about any apparent increase or decrease that is observed.

Changes in reported numbers over time

The deaths included in the VSR are regularly reviewed as coroners' investigations progress and more is learned about the circumstances in which they occurred. Deaths may be removed from the VSR if investigation establishes they are likely not to be suicides; likewise, deaths initially missed may be added to the VSR as new evidence consistent with suicide is gathered. This is why some data reported here may be different to what was reported in previous months.

However, data changes are usually minor: VSR analyses have shown that over time, there is consistently less than 5% difference between the number of suicides initially identified as suicides, and the number of deaths ultimately confirmed as suicides.

Monthly data update

1. Year to date number by sex

Table 1 shows the number of Victorian suicides by deceased sex as at the end of June each year, for the years 2021-2025.

Table 1: Year to date (month end June) suicide number by sex, Victoria 2021-2025.

Sex	2021	2022	2023	2024	2025
Male	251	242	267	288	276
Female	77	110	103	106	110
Total	328	352	370	394	386

2. Monthly number of suicides

Table 2 shows the monthly number and aggregate monthly¹ number of Victorian suicides for January 2021 through to June 2025.

Table 2: Monthly number and aggregate monthly number of Victorian suicides, January 2021 to June 2025.

Monthly number						Aggregate monthly number				
Month	2021	2022	2023	2024	2025	2021	2022	2023	2024	2025
January	58	55	71	80	66	58	55	71	80	66
February	49	54	61	83	61	107	109	132	163	127
March	67	64	56	69	82	174	173	188	232	209
April	48	58	70	56	60	222	231	258	288	269
May	49	56	64	47	59	271	287	322	335	328
June	57	65	48	59	58	328	352	370	394	386
July	54	57	64	64		382	409	434	458	
August	50	73	62	82		432	482	496	540	
September	49	73	72	63		481	555	568	603	
October	73	77	87	67		554	632	655	670	
November	60	65	70	53		614	697	725	723	
December	54	71	70	54		668	768	795	777	

1 The aggregate monthly number is the sum of numbers for all months so far in each year. For example, the aggregate monthly number in March of a year is the sum of the monthly numbers in January, February and March for that year.

3. Year to date number by age group and sex

Table 3 shows the Victorian suicide number by deceased sex and age group as at the end of June each year, for the years 2021-2025.

Table 3: Year to date (month end June) suicide number by sex and age group, Victoria 2021-2025.

Age group by sex	2021	2022	2023	2024	2025
Male					
Under 18	5	0	10	2	5
18 to 24	25	26	21	34	22
25 to 34	44	45	50	50	44
35 to 44	47	47	54	63	71
45 to 54	49	56	54	48	51
55 to 64	40	23	39	39	35
65 and over	41	45	39	52	48
Total	251	242	267	288	276
Female					
Under 18	6	2	7	4	7
18 to 24	8	11	7	12	9
25 to 34	16	17	21	19	20
35 to 44	13	22	24	21	26
45 to 54	14	22	19	20	15
55 to 64	12	11	11	14	11
65 and over	8	25	14	16	22
Total	77	110	103	106	110
All people					
Under 18	11	2	17	6	12
18 to 24	33	37	28	46	31
25 to 34	60	62	71	69	64
35 to 44	60	69	78	84	97
45 to 54	63	78	73	68	66
55 to 64	52	34	50	53	46
65 and over	49	70	53	68	70
Total	328	352	370	394	386

4. Year to date number by location of fatal incident

Table 4a shows the suicide number as at the end of June in Metropolitan Melbourne and Regional Victoria, for the years 2021 to 2025. Table 4b shows the same data but represented as proportions of all suicides rather than as numbers.

Table 4a: Year to date (month end June) suicide number by location of fatal incident, Victoria 2021-2025.

Location of fatal incident	2021	2022	2023	2024	2025
Metropolitan	212	235	243	269	258
Regional	116	117	127	125	128
Total	328	352	370	394	386

Table 4b: Year to date (month end June) suicide proportion by location of fatal incident, Victoria 2021-2025.

Location of fatal incident	2021	2022	2023	2024	2025
Metropolitan	65%	67%	66%	68%	67%
Regional	35%	33%	34%	32%	33%
Total	100%	100%	100%	100%	100%
